

Arch Aluminum and Glass, ACI Glass Products (formerly Vitro America) and United Glass Corporation Introduce New Name for Merged Companies

TAMARAC, FL – July 21, 2011 – Arch Aluminum and Glass (“Arch”), ACI Glass Products (formerly Vitro Architectural Products) and United Glass Corporation (“UGC”), today announced that “Trulite Glass & Aluminum Solutions” will be the company name as they are merged together.

Trulite Glass & Aluminum Solutions will continue to service the commercial glazing market through its various fabrication facilities with a presence in nearly every U.S. state. In addition, Super Sky, a commercial skylight manufacturer, and AWP, manufacturer of residential windows, will continue to be an essential aspect of the product portfolio moving forward.

Fabrication of all glass systems will continue under the Envision® brand. Manufacture and distribution of architectural aluminum entrances, curtain wall, window wall and framing systems remain a core division within Trulite. In addition, the product line will continue to focus heavily on mirror, high performance, tempered, laminated and decorative glass as well as insulated glass units.,

“The combination of these three noteworthy companies begins with tremendous resources to support the glazing industry. Our customers will now be working with an industry leader in terms of quality and on time delivery. Delighting customers with reliable ON TIME and ON SPEC performance will continue to be our focus and mission.” said Jeff Leone, president and CEO.

About Trulite Glass & Aluminum Solutions

Trulite Glass & Aluminum Solutions is one of North America’s largest architectural glass and aluminum fabricators and distributors of architectural aluminum, insulated units, mirrors; tempered, laminated, and decorative glass. Trulite has twenty-six locations throughout the U.S. and Canada.
